

Serial No.: 09/992,022

REMARKS

It is noted that the Notice of Allowance and Notice of Allowability identify the Title of the present invention in an erroneous manner, inconsistent with the amendment to the Title as provided in applicant's paper filed June 25, 2004.

As provided in that amendment, the title was amended to read:

**METHOD FOR PROTECTION OF DATA REPRODUCTION ACCORDING
TO MEDIUM PROTECTION DATA, POSITION INFORMATION AND FIRST
AND SECOND APPARATUS PROTECTION DATA TO DETERMINE A
RANGE OF PROTECTION FOR MAIN DATA AT SPECIFIED POSITIONS
AND WHETHER SAID MAIN DATA ARE REPRODUCED IN THEIR
ENTIRETY, PARTIALLY, OR NOT AT ALL.**

However, in both the Notice of Allowance and Notice of Allowability the title includes two errors:

- 1) The word "Reproduction" is omitted from line 1 of the Title; and
- 2) The concluding phrase "Entirety, Partially, or Not at All" is erroneously presented as the abbreviated term "Entiret".

The present "amendment" is filed under the provisions of 37 CFR 1.312 in order to correct the above noted errors of the USPTO, and to conform the Notice of Allowance and Notice of Allowability, as well as the patent to be issued on the application, to the correct title of the invention, as previously amended and as shown above.

Serial No.: 09/992,022

It is respectfully requested that the patent to be issued on the present application provide the correct title therefor.

Additionally, applicant notes that neither the first Official Action nor the Notice of Allowance identifies applicant's claim for domestic priority. However, inasmuch as the present application is a properly filed continuation application, it is courteously requested that the records of the U.S. Patent and Trademark Office properly identify the domestic priority of the present application and of the patent to be issued thereon.

Inasmuch as the present request is provided to correct a typographical error, it is believed that the correction may properly be implemented in response to the present request, and that a separate section of the amendment to amend the Title is not necessary, as the Title has already been properly amended in the paper filed June 25, 2004.

Having thus provided a correction of a typographical error and a proper amendment under 37 CFR 1.312, it is respectfully requested that the amendment be entered and that the typographical error be corrected. In order to expedite resolution of any remaining issues and further to expedite issuance of the application, the Examiner is respectfully requested to contact the undersigned by telephone at the below listed local telephone number if any further comments, questions or suggestions arise in connection with the application.

Respectfully submitted,

Israel Gopstein
